

PRO PUNCH WITH CUTTER

Tubing cutter, hole punch and insertion tool.

PUNCHING

Remove the tip from the handle and insert it into the punch slot.

Secure the tip by pulling up the lock.

Punch a hole into the tubing.

Note: It is good practice to store the tip back in the handle when done.

INSERTING

Attach the tubing with the barb.

Press down hard to connect.

Remove the tool.

CUTTING

Open the knife compartment.
Caution - Sharp blade.

Cut the 1/4" micro tubing to your desired length.

Cut the 1/2" tubing to your desired length.

Warning!
Object is sharp - Use safety
