

Pop-Up Indicator

DSPI Series

Pop-Up Indicator

The DSPI series micro pop-up indicators are designed to provide a clear visual verification when drip irrigation valves are open.

Available in four configurations, the DSPI series pop-up indicator utilizes a double seal and an extra-large red color indicator which pops up when a drip irrigation system is pressurized and running.

Features

- Available in four configurations: 8" and 12" with 1/2" MPT or 24" micro tubing and barb
- Large red color indicator is clearly visible from a distance
- Unique design incorporates a pressure activated, low friction, upper stem seal and a second stage piston seal to ensure reliable operation
- Can be installed with Excel™ dripline, poly tubing, PVC or used with any drip irrigation system
- Ideal for sub-surface systems and densely planted sites
- Rugged materials can withstand adverse conditions

Pop-Up Indicator

DSPI Series

Specifications:

- Operating pressure: 15-35 PSI (1-2.4 BAR)
- Nominal operating pressure: 30 PSI (2.1 BAR)
- Pop-up indicator height:
 - 8" (20.3 cm) retracted to 13" (33 cm) extended
 - 12" (30.5 cm) retracted to 21" (53.3 cm) extended

Materials:

- Cylinder: Polyethylene
- Housing: Acetal
- O-ring: Buna-N
- Spring: Stainless steel 304
- Red flag: High-impact plastic with UV
- Black sleeve: High-impact plastic with UV

1/2" MPT base

24" micro tubing with barb

How to specify

Model	Description
DSPI-08	8" with 1/2" MPT
DSPI-08B	8" with 24" micro tubing and barb
DSPI-12	12" with 1/2" MPT
DSPI-12B	12" with 24" micro tubing and barb
